

Detective Unit

The Detective Unit conducts investigations that are deemed to be long-term, highly complex or technical or multi-jurisdictional. This unit also conducts background investigations for certain Town employees, on behalf of Town Human Resources, in addition to all police department personnel. The Unit is also responsible for identification, collection and processing of forensic evidence in field and laboratory settings. The unit also actively ensures compliance with regulatory mandates such as sexual offender registration and firearms purchases.

Investigators receive training in contemporary investigative techniques, such as evidence processing, photography, fingerprint recognition and advanced interview and interrogation techniques.

The Unit is staffed by two permanent Detectives, two rotating Training Detectives, two special Purpose Investigators, and one Evidence Officer, all under the supervision of a Sergeant. The unit is in the Support Services Division, commanded by a Lieutenant.

Please feel free to call or email us with any questions. The Unit can be reached by calling the main police number, 242-5501, and asking to speak with a Detective.
